Benjamin Clementine

Walking away
Won't stop a thing
Take a break
Then start again

Ain't no love, ain't no hate
Just us and what goes by
Can't walk away, can't run away
From my lover I've got to stay
Healing rain with my lover
Beautiful world give us a hand
Time is running, running like a motherfucker
But I know we can

Like a supernova
Always needing space
This buffalo soldier
Won't matter for days
Perspiration won't stop the race
Inspiration is where we embrace

Ain't no love, ain't no hate
Just us and what goes by
Can't walk away, can't run away
From my lover, I've got to stay
Healing rain with my lover
Beautiful world give us a hand
Time is running, running like a motherfucker
But I know we can

Ahh
Can't run away from my love
