

# Just The Same

Benjamin Dakota Rogers

Flying down the interstate  
Faster than a hurricane  
Everybody's gonna curse the day  
Everybody's gonna know her name  
She's my pretty little darling red dress high heels on

They know her face and every bar around  
Yeah, boy she gets around  
Pageant queen in a plastic crown  
Calls me up when she's feeling down  
She's my pretty little darling red dress high heels on

She's a bad woman, but I love her just the same  
She's a bad woman, but I love her just the same  
Yeah, I like the way she holds me and I love the way she whispers my name

She likes to take me out at night  
Oh boy, I'm bound to fight  
Trouble lurking in her eyes  
Should've taken my mom's advice  
But she's my pretty little darling red dress high heels on

She's a bad woman, but I love her just the same  
She's a bad woman, I love her just the same  
Yeah, I like the way she holds me and I love the way she whispers my name

I oughta know better I oughta know better by now  
I oughta know better I oughta know better by now  
I oughta know better I oughta know better by now

She's a bad woman, but I love her just the same  
She's a bad woman, but I love her just the same  
Yeah, I like the way she holds me and I love the way she whispers my name  
I like the way she holds me and I love the way she whispers my name  
I like the way she holds me and I love the way she whispers my name
