

# Canary In A Coalmine

Benjamin Francis Leftwich

First time I'm in love with my eyes wide open again  
I'm just a kid on the bed with a grin and I cannot pretend  
This is new to me, making time for two  
Never felt it all like I do with you  
First time I'm in love with my eyes wide open again

Finally I'm free, a canary in a coal-mine  
Peace, as I dance on a trip wire  
Breathe for the first time  
I barely even know ya  
But you're all I wanna see, yeah

First time I can see in full colour, and I like what I see (Like what I see, yeah)  
Ain't it good in the world when you notice all the patterns on leaves?  
This is new to me, taking time for two  
Never felt it all like I do with you  
Yeah, first time I can see in full colour, and I like what I see

Finally, I'm free, a canary in a coal-mine  
Peace, as I dance on a trip wire  
Breathe for the first time  
I barely even know ya  
But you're all I wanna see, yeah

Finally, I'm free, a canary in a coal-mine  
Peace, as I dance on a trip wire  
Breathe for the first time  
I barely even know ya  
But you're all I wanna see
