

Immortal

Benjamin Francis Leftwich

One step forward and two steps back
I get love and I throw it back
Make my peace with the moon as the party ends
One step forward and two steps back
That blue sky just fades to black
Can not see why I needed to know

I am so ready for you ya know
It is true, it is true
I've been warmer when I'm dreaming of you
When I'm dreaming
I would make heaven for you ya know
It is true, it is true
I have been warmer when I'm waiting for you
When I'm waiting
