

## Miracle Sister

Benjamin Francis Leftwich

Miracle sister, from the minute you were born  
You have held your head above water, you have outrun a storm  
Miracle sister, from the second you were saved  
You have shown me how to see through the surface and say  
Even in your darkest days  
Have hope, be strong, don't break  
Now I see you walk again  
My heart could burst with pride

Miracle sister, we have been here before  
We have boarded up the windows, and locked up the doors  
Miracle sister, no matter the weight  
Of the oceans lying between us  
You turn up to say

Even in your darkest days  
Have hope, be strong, don't break  
Now I see you walk again  
My heart could burst with pride

Even after stormy skies  
We've grown, I know  
Miracle sister, red of the rose
