

## Power Down

Benjamin Francis Leftwich

Power down, couple days  
Gonna make peace in wild space  
Power down, look around  
See the wave, bumps it makes  
Make me overthink my own mistakes  
Power down

I was caught in a storm on arrival  
All my bags have been lost on the plane  
Only love remains

Power down, so you know  
Gotta disappear so I can grow  
Power down, look around  
Feel the wind separate  
Everything I need from what I take  
Power down

I was caught in a storm on arrival  
All my bags have been lost on the plane  
Only love remains

Enduring the cost of revival  
I'm still new by the end of the day  
Only love remains
