

Snowship

Benjamin Francis Leftwich

I was only looking for the treasure in the dark
Not the tree's and people in the middle of the park
But the treasures buried beneath years and years of time

He put his hand in my hand and he told me, "Son,

When they all come looking for you, where you gonna run?
Your hearts wired up to the eyes in your head and they're flash
ing bright."

Be careful what you wish for when you're young
Be careful what you wish for when you're young

I signed a deal with the devil and he took my soul
To a room with a table in the dark and cold.
I signed my name just the same as I'd done on the line before.

I was in the middle of the cliff and the sea
With a ditch right behind me that the bitch couldn't see
She came right at me with her teeth and her dress
And they both fell off

Be careful what you wish for when you're young
Be careful what you wish for when you're young
