

Black & Blue

Benjamin Ingrosso

You grab my hand and whisper
It's only you and me
I never can escape it
You come so easily
I couldn't help myself
Yeah, if I wanted to
The way you've got me feeling
Beating my heart black and blue

Thought that you could
Be a distant memory that don't mean nothing to me
Days I had my doubts
(It don't mean nothing to you at all)
There you go, just
Trying to pull me closer, tell me to come over
I should know by now
(It don't mean nothing to you at all)

You grab my hand and whisper
It's only you and me
I never can escape it
You come so easily
I couldn't help myself
Yeah, if I wanted to
The way you've got me feeling
Beating my heart black and blue

Yeah, I see your
Temporary highs just keep me hypnotized
And you should know by now
(It don't mean nothing to you at all)

You may be fatal, it's alright
The way you touch me keeps me up all night
Even when it hurts, always giving in to you
And I beat my heart black and blue

You grab my hand and whisper
It's only you and me
I never can escape it
You come so easily
I couldn't help myself
Yeah, if I wanted to
The way you've got me feeling
Beating my heart black and blue

You grab my hand and whisper
It's only you and me
I never can escape it
You come so easily
I couldn't help myself
Yeah, if I wanted to
The way you've got me feeling
Beating my heart black and blue

The way you've got me feeling
Beating my heart black and blue
