

Bullet

Benjamin Ingrosso

You were more than precious
More than just a friend
More than just a lover
In the end

You were like no other
Unlike anything
Closer than nobody
Would ever been

For you I'd die
For you I'd die
Die a thousand deaths
Just to save one breath

For you, I'd die
For you, that's why
On my final bed
I remember every word you said

I'd take a bullet if the bullet got your name
So I took a bullet cause I knew you'd do the same
But you lied to me
Said you'd die for me
But I know (I know you're killer)
Ice cold (Ice cold lil' killer)

We were something special
A different kind of bond
I told you that I loved you
And this how you respond?

For you I tried
For you I tried
Gave it all I had
But you gave none back

For you I tried
Crucified
When you looked at me
It was murder in the first degree

I'd take a bullet if the bullet got your name
So I took a bullet cause I knew you'd do the same
But you lied to me
Yeah you lied to me
And I know (I know you're a killer)
Yes I know (Ice cold lil' killer)

I took a bullet and my heart went up in flames
The one I'd die for and the shooter was the same
Yeah you lied to me
Said you'd die for me
But I know (I know you're killer)
Ice cold (Ice cold lil' killer)

You were more than precious

More than just a lover in the end

I'd take a bullet if the bullet got your name
So I took a bullet cause I knew you'd do the same
But you lied to me
Yeah you lied to me
And I know (I know you're a killer)
Yes I know (Ice cold lil' killer)

I took a bullet and my heart went up in flames
The one I'd die for and the shooter was the same
Yeah you lied to me
Said you'd die for me
But I know (I know you're killer)
Ice cold (Ice cold lil' killer)
