

Dance For Me

Benjamin Ingrosso

Dance for me
Like you used to dance for me
Let's rewrite the fact that we
We belong to history

Swear I'm not thinking about you
And you're not keeping me wide awake
Swear that I'm better without you
And I'm not questioning my mistakes

We broke it
It ended
We play it cool, we're good at pretending
I'm calling
Are you around

Won't you come and
Dance for me
Like you used to dance for me
Let's rewrite the fact that we
We belong to history

Won't you
Dance for me
Make a final memory
Could we just forget that we
We belong to history

Night clubbing damn what I'm vibing
Yeah the whole world is wide awake
But you're not here, and that's what I'm craving
You're the one that could stop the wait

We broke it
It ended
We play it cool, we're good at pretending
I'm calling
Are you around

Won't you come and
Dance for me
Like you used to dance for me
Let's rewrite the fact that we
We belong to history

Won't you
Dance for me
Make a final memory
Could we just forget that we
We belong to history

Dance for me
Like you used to dance for me
Let's rewrite the fact that we
We belong to history

Won't you come and

Dance for me
Make a final memory
Could we just forget that we
We belong to history
