

Dance You Off

Benjamin Ingrosso

I see that look in your eyes
But I ain't feelin' no pressure (pressure)
Careful of things that you do
Or I might move to the next ya
You always mess with my mind
I can't believe that I let ya (I let ya)

Feels like I'm stuck here in time
While I've been trying to forget ya (forget ya)

Just wanna da-da-dance you off
So don't you da-da-dare wait up
'Cause I just wanna feel the mood
Girl with anyone but you
And I might now
Yeah, I might now
Just trying to have myself a time
So I just don't care if you mind
'Cause I just wanna feel the mood
Girl with anyone but you
And I might now
Yeah, I might now

Treating you good, we were gold
I dug you like you were treasure (treasure)
So don't act like I'm the cruel one
When I know you know better (when I know you know better)
And I (and I)
Oh, I used to think that you were worth the best in life
'Cause I loved it (I loved it)

Feels like I'm stuck here in time
While I've been trying to forget ya (forget ya)

Just wanna da-da-dance you off (wanna dance you off)
So don't you da-da-dare wait up (don't you dare wait up)
'Cause I just wanna feel the mood
Girl with anyone but you
And I might now
Yeah, I might now
Just trying to have myself a time (have myself a time)
So I just don't care if you mind (don't care if you mind)
'Cause I just wanna feel the mood
Girl with anyone but you
And I might now
Yeah, I might now

(I'm just gonna dance you off the floor)
I'm just gonna dance you off the floor
(Oh, I'm just gonna dance you off the floor)
(I just wanna dance you off)
I used to think that you were worth my every night
Every night

(Just wanna da-da-dance you off) You
(So don't you da-da-dare wait up) Don't you dare wait up for me now
(Cause I just wanna feel the mood)

Girl with anyone but you
(And I might now)
I might
I might now
(Just trying to have myself a time) I'm just going to have myself a time
(So I just don't care if you mind) Don't care if you mind
('Cause I just wanna feel the mood)
Girl with anyone but you
And I might now
Yeah, I might now
