

# Good Lovin'

Benjamin Ingrosso

Can't focus I'm numb  
You're here, now you're gone  
Haven't slept for days

Deleted your name  
Yeah right off my phone  
And I blocked your number but when I'm alone

It's harder to handle  
When you're frozen in my blood and my veins

The memory is painful  
But late at night

Baby  
Every time I try to forget I'm alone  
I'm impersonating someone else and  
Maybe  
I die a little knowing you're not by yourself

But then I remember  
I remember that good good lovin  
That good lovin

You give me that good good lovin  
I need to feel it once again

I saw you  
He's touching your body like I used to do

You know I've been bleeding ever since we hit the wall

You saw me  
Messing with some girl pretending it was you  
But how did we get so far from what we were

The memory is painful  
But late at night

Baby  
Every time I try to forget I'm alone  
I'm impersonating someone else and  
Maybe  
I die a little knowing you're not by yourself  
But then I remember

I remember that good good lovin  
That good lovin

You give me that good good lovin  
I need to feel it once again

You give me that good lovin baby

Baby  
Everytime I try to forget I'm alone  
I'm impersonating someone else and

Maybe

I die a little knowing you're not by yourself  
But then I remember

I remember that good good lovin  
That good lovin

You give me that good good lovin  
I need to feel it once again

Good good lovin  
That good lovin

You give me that good good lovin  
I need to feel it once again

Can't focus I'm numb  
You're here now you're gone  
Haven't slept for days
