

Love Songs

Benjamin Ingrosso

You look so damn beautiful wasted in my car
Windows down and music up pretending you're a star
Sometimes I wonder, what have I done to deserve you
And I say this without intention to hurt you

I know you only love me cause I keep writing you love songs
You probably wouldn't be here if it wasn't for these love songs
Oh I bet it would be easy just to leave me to let me go
I know you only love me cause I keep writing you love songs, love songs babe

You look so uninterested with every word I say
You don't like to sleep alone and I'm a place to stay
Used to believe you and me had this potential
Cause I love you and you clearly love to feel special

I know you only love me cause I keep writing you love songs
You probably wouldn't be here if it wasn't for these love songs
Oh I bet it would be easy just to leave me to let me go
I know you only love me cause I keep writing you love songs, love songs

I know you only love me cause I keep writing you love songs
You probably wouldn't be here if it wasn't for these love songs
Oh I bet it would be easy just to leave me to let me go
I know you only love me cause I keep writing you love songs, love songs

I know you only love me cause I keep writing you love songs, love songs
