

Me Without You

Benjamin Ingrosso

Can't believe we were fifteen
We both so young and so naive

We would
Make an always-forever pact
And carve our names into the past

How quickly it all goes
Now were just barely
Holdin' on no

If I could let you
Go would you fly
And if I did would it save us tonight
Or would it break my heart if I tried
Or is it meant to be

Would you be the you without me
Would I be the me without you

(They said)
This thing's never gonna last
She'll only be someone from your past

(If I could)
Trace back, all of the wrong turns
I'd change that, I'd do that for you

How quickly it all goes
Now were just barely
Holdin' on no

If I could let you
Go would you fly
And if I did would it save us tonight
Or would it break my heart if I tried
Or is it meant to be

Would you be the you without me
Would I be the me without you

If I could let you
Go would you fly
And if I did would it save us tonight
Or would it break my heart if I tried
Or is it meant to be

Would you be the you without me
Would I be the me without you

Could you be the you without me
Cause I can't be the me without you
