Queens

Benjamin Ingrosso

You are my sunshine, my guidance, my glory
What would we do without queens?

Little kid back in school
Nothing I did was cool
Wasn't manly enough

Mama taught me respect
Sister kept me in check
Wasn't wrong showing love

I tried to keep it all inside
Bottle up and hide my feelings
But couldn't keep it quiet
In my house we would talking out
If they wanna fight with me
I'mma kill them all with kindness

All through time
It's always been the same thing
Who's the man, who is king
I'd be lost in this life
Tell me, what would I be without queens?

Queens
(What would I be without)
Queens

Isn't it funny how
History tries to hide
All their queens in their pride

Cause now I know, now I see
All that they did for me
Made me strong, made me free

I tried to keep it all inside
Bottle up and hide my feelings
But couldn't keep it quiet
In my house we would talking out
If they wanna fight with me
I'mma kill them all with kindness

All through time
It's always been the same thing
Who's the man, who is king
I'd be lost in this life
Tell me, what would I be without queens?

Queens
(What would I be without)
Queens
(What would I be without)
Queens
(What would I be without)
Queens
