

# Smile

Benjamin Ingrosso

You're always there to listen  
You always put me first  
When nobody else gets it  
It's us against the world

Sometimes you know me better than I know myself  
And when I'm down I always reach to you for help  
And I don't say it often  
But without you I'm not much

I see me when I'm looking at you  
We both know all the things we've been through  
When you cry you know I feel it too but  
When you smile  
I smile

There is something that connects us  
We've always felt it there  
Ain't no one I love better  
There's no one who compares

Sometimes you know me better than I know myself  
And when I'm down I always reach to you for help  
And I don't say it often  
But without you I'm not much

I see me when I'm looking at you  
We both know all the things we've been through  
When you cry you know I feel it too but  
When you smile  
I smile

Know with me you'll never be alone  
Know with me you'll always have a home yeah  
When you cry you know I feel it too but  
When you smile  
I smile  
Yeah, I smile

I see me when I'm looking at you  
We both know all the things we've been through  
When you cry you know I feel it too but  
When you smile  
I smile

Know with me you'll never be alone  
Know with me you'll always have a home yeah  
When you cry you know I feel it too but  
When you smile  
I smile  
Yeah, I smile

Know with me you'll never be alone  
Know with me you'll always have a home  
When you smile  
I smile
