

So Good So Fine When You're Messing With My Mind

Benjamin Ingrosso

[Verse 1]

I know it's the third time that I've told you that we're breaking up
this month

'Cause girl you love to party and I love to talk about myself a lot

'Cause baby we ain't meant to be but how come we got chemistry?

Oh why, why, why, why

I gotta help my self-esteem so this time I should really leave

But tell me why, why, why, why

[Chorus]

Is it so good

When we movin' in inhibition start to lose it

So fine

Hands they slippin' from my chest right down to my

So good I can sleep, we repeat every night

So good, so fine when you're messing with my mind

[Verse 2]

Snap a mental photo of this moment me and you in case it ends tonight

We've had so many ups and downs that even all our friends say we should live our lives

'Cause baby we ain't meant to be but how come we got chemistry?

Oh why, why, why, why

[Chorus]

Is it so good

When we movin' in inhibition start to lose it

So fine

Hands they slippin' from my chest right down to my

So good I can sleep, we repeat every night

So good, so fine when you're messing with my mind

Good

When we movin' in inhibition start to lose it

So fine

Hands they slippin' from my chest right down to my

So good I can sleep, we repeat every night

So good, so fine when you're messing with my mind

[Bridge]

Baby, can you tell me why?

[Chorus]

Is it so good

When we movin' in inhibition start to lose it

So fine

Hands they slippin' from my chest right down to my

So good I can sleep, we repeat every night

So good, so fine when you're messing with my mind

So good I can sleep, we repeat every night

So good, so fine when you're messing with my mind
