

# Hold On

Benjamin Orr

Well, you sure look good tonight  
I think I've come to see some light  
Come on, hold on to me  
Belong to me  
You know that love looks good on you  
In what you say and what you do  
Come on, hold on to me  
It's all I need

I gotta do the perfect time that's blowing by  
Not a thing to show for all the times I've tried  
Now we just can't seem to wipe the smile away  
And you gave it to me  
Give it up, I'm feeling something beautiful  
Look at this, we're starting to be suitable to me  
Every day I find what you got into us

Can't seem to get enough of you  
When you're away, I dream that you...  
Come on and hold on to me  
Belong to me  
And so it never really ends  
You mend the hurts that never mend  
Come on, hold on to me  
It's all I need

Where did all what I had in my run for me  
Guess ya gotta take the blinders off so you can see  
Not a thought comes by that doesn't hang on you  
And what did I do before?  
Can't believe that this is really happening  
All the hurtful days are finally vanishing  
Making all the fantasies realities

We could be in for some surprises  
I know it, you know it too  
Before you think of compromises  
Just realize it's only here for you

Yeah, you sure look good tonight  
I think I've finally seen some light  
Come on, hold on to me  
It's all I need  
And so it never really ends  
You mend my hurts that never mend  
Come on and hold on to me  
Belong to me

Gotta make for bringing out the best to me  
When the love is right, it's possible to see so clearly  
All my life I wondered would it come to me  
Then you brought it to me  
Can't believe that this is really happening  
All the hurtful days are finally vanishing  
Making all your fantasies realities

Where did all what I had in my run for me

Guess ya gotta take the blinders off so you can see  
Not a thought comes by that doesn't hang on you  
And what did I do before?
