

# The Lace

Benjamin Orr

Just walking through the city  
Some need to sort things out  
I don't need to know the pity  
I'm feeling for us now

We walked right back together  
Back when I hardly knew  
Why do the strangest things  
Bring back those times with you?  
Just when we're getting closer  
I'm seeing something new

Just soaking up the city  
Drifting the days away, yeah  
Searching through crowds of people  
The face that got away

We've talked good times together  
Put all my dreams on you  
You let me down somehow  
And now I see where to  
Turns out my best just  
Wasn't good enough for you

You couldn't recognize  
A loss in the world  
I want to lose yourself  
You couldn't feel at all  
Everything just ends up so sad  
Too bad  
I gave it what I had

Just walking through the city  
Drifting the days away, yeah  
Searching through crowds of people  
The lace that got away

You're telling me it's nothing  
When I don't watch, you stare  
How could I get to you  
When you were never there?  
We walked right back together  
Back when I hardly knew  
Why do the strangest things  
Bring back those times with you?  
Just when we're getting closer  
I'm seeing something new

You couldn't recognize  
A loss in the world  
So sad
