

# This Time Around

Benjamin Orr

So many times disappointed  
Thrown about with the doubt  
You could never see  
And out of nowhere it sounded  
Something is happening

Someone who happened to hear you  
Listening in silence and knew  
How to understand  
One step ahead of a feeling  
Touching with loving hands

Now I know that things are gonna be alright  
(This time, this time)  
This time around  
Lonely days give way to warm and gentle nights  
(This time)

No need to keep second guessing  
Racing in circles and trying to figure out  
Answers to all of the questions  
You had them all along  
(You had them all along)

Yes, I know that things are gonna be alright  
(This time, this time)  
This time around  
Lonely days give way to warm and gentle nights  
(This time)

Take away all of your doubts  
'Cause there's something for you  
That comes from a different place  
In a different way

Straight ahead, you and me every day  
You just got to be you; just believe  
You know what love can give you what you need

Now I know that things are gonna be alright  
(This time, this time)  
This time around  
Lonely days give way to warm and gentle nights  
(This time)  
Warm and gentle summer nights

So many times disappointed  
Thrown about with the doubt  
You could never see  
Then out of nowhere it sounded  
Straight to the heart of me

Now I know that things are gonna be alright  
(This time, this time)  
This time around  
Lonely days give way to warm and gentle nights  
(This time)

Yes, I know that things are gonna be alright  
(This time, this time)  
This time around  
Lonely days give way to warm and gentle nights  
(This time)  
Warm and gentle summer nights

This time it's gonna be all right  
This time  
This time I know it's gonna be all right  
This time  
This time it's gonna be all right  
This time  
This time I know it's gonna be all right  
This time
