

I Ain't The Man

Benjamin Tod

I'm afraid we haven't met it seems
You could walk away and leave me be
And these city slicks don't understand
Lord I ain't the man you think I am
Call the law or let me be
Either way I'll always be free
Wanted all across the land
Lord I ain't the man you think I am

I've been nice and clean for 90 days
But don't the poke the wolf inside his cave
I can flip the script with a slight of hand
Lord I ain't the man you think I am
Call the law or let me be
I've got friends inside I'd love to see
Wanted all across the land
Lord I ain't the man you think I am

I can mind my own and keep the peace
I could work these hands instead of sing
Don't take my smile for wedding plans
Lord I ain't the man you think I am
Call the law or let me be
You could give or take eternity
Wanted all across the land
Lord I ain't the man you think I am
