

# Turn The Devil Away

Benjamin Tod

If it's all the same  
Could I leave some burdens here  
There's some bad mistakes  
Broken heart from yesteryear  
And for all we take  
Could I say what you need to hear  
Got no time to waste  
If you hold anything dear

Don't be living too high  
Don't be dying to go  
It's a balance of life  
Takes some self control  
I went wrong for so long  
I may never be tamed  
Leave the past when she's gone  
Turn the devil away

I've been left all alone  
With no one else to blame  
Toward the wreckage I was prone  
Years of turmoil and pain  
For the kindness that you've shown  
I've fought like hell to change  
Time to bring it on back home  
And live to die another day

Don't be living too high  
Don't be dying to go  
It's a balance of life  
Takes some self control  
I went wrong for so long  
I may never be tamed  
Leave the past when she's gone  
Turn the devil away

Leave the past when she's gone  
Turn the devil away
