

Not Even Once

Benjamin William Hastings

Yeah, the fact that I'm still standing is a tribute to Your grace
It's a miracle I made it, it's a legacy of days
Where You made a way though there was no way out
But You never failed, so why doubt You now?

When I found You faithful, the God who breaks no vow
You kept Your word so many times that I lost count
But that's just Your nature, You won't go changing now
I can't recall a single time You let me down
Not even once, oh, no-no-no
Not even once, no

Just the fact that I'm still standing is a tribute to Your grace
'Cause the depths of my transgressions You abandoned like the grave
When You made a way though there was no way out
But did You not prevail? So why doubt You now?

When I found You faithful, the God who breaks no vow
You kept Your word so many times that I lost count
That's just Your nature, You won't go changing now
I can't recall a single time You let me down, no

You never let me down, You never let me down
Oh, oh
You never let me down, You never let me down
Not even once (Woo!)
You never let me down, You never let me down
Oh, oh (Not even for a moment)
You never let me down, You never let me down
Not even once

I found You faithful (Yes, I did)
The God who breaks no vow
You kept Your word so many times that I lost count
That's just Your nature (That's just the way You are)
You won't go changing now (I know)
I can't recall a single time You let me down, hey

You never let me down, You never let me down
Oh, oh
You never let me down, You never let me down
Not even once (Not even once I recall)
You never let me down, You never let me down
Oh, oh (You never let me down)
You never let me down, You never let me down
Not even once
