

Push

Benji Lewis

Is it mine
Is it yours
Am I right
Was I wrong

I see light
In the dark
Goin round
It won't stop

Breathe is caught
Now I run
Skies are changin
Here we go

And now I call out to the night, brother
But will you hear me, can we lift each other
Push it all aside, now we fly

Wanna love
But we fight
Can we talk
It'll pass

Stop and feel
I see blood
It's dryin up
Will fade away

Breathe is caught
Now I run
Skies are changin
Here we go
And now I call out to the night, brother
But will you hear me, can we lift each other
Push it all aside, now we fly

Don't wanna break
Can we rise

Breathe is caught
Now I run
Skies are changin
Here we go
