

## Us Again

Benji Lewis

I'm searching  
Oh baby, I'm searching  
Through time places  
I'll find ya  
Finding distractions as I'm getting closer  
But it won't deter me  
I feel it

Let it be us again  
No stopping  
Let it be us, let it be us again  
Let it be us again  
No stopping  
Let it be us, let it be us again

You're waiting  
Oh no you're away from me

It's changing  
The world is changing  
Closed doors behind me  
I leave them

I'm searching  
Oh baby, I'm searching  
Through time places  
I'll find ya  
Finding distractions as I'm getting closer  
But it won't deter me  
I feel it

Let it be us again  
No stopping  
Let it be us, let it be us again  
Let it be us again  
No stopping  
Let it be us, let it be us again  
Let it be us, let it be us again  
No stopping  
Let it be us, let it be us again

I wonder  
Oh yeah I dream of you  
Through my days and nights  
Same place, same time  
Soon love, I'll be there soon love  
Closed doors behind me  
I'll leave them
