

RUSH

Benny Mayne

Black nails runnin' my back (Back)
Candles on the night stand (Stand)
She'll go in and bite fast (Bite fast, oh)
Fangs out in the moonlight (Light)
You know that you're my type (Type)
Pull me under the riptide
Bet he ain't get you this high

Can't help yourself and it shows
So much for taking it slow
Good thing it's just what I like (Ooh)
I'll let you take all control
Both hands wrapped around my throat
Turned to a freak in the night

So kiss me for the rush (Rush)
Ride me till you're numb (Numb)
If that turns you on
Taste you on my tongue (Tongue)
I can't get enough (Enough)
Strung out on your love

E-girl from the valley (Valley)
I'm Jack to her Sally (Sally)
All red seats in the Cadillac hearse
Night shift bout to give me your worse
So drop dead gorgeous
Tryin' keep it in focus
LV bag full of whips and chains
I'm liking the way she think

Can't help yourself and it shows
So much for taking it slow
Good thing it's just what I like (Ooh)
I'll let you take all control
Both hands wrapped around my throat
Turned to a freak in the night

So kiss me for the rush (Rush)
Ride me till you're numb (Numb)
If that turns you on
Taste you on my tongue (Tongue)
I can't get enough (Enough)
Strung out on your love

Oh-oh, oh-oh-oh-oh, ohh
You got just what you want
And that's what turns me on
Oh-oh, oh-oh-oh-oh, ohh
You give it all to me

Can't help yourself and it shows
So much for taking it slow
Good thing it's just what I like
I'll let you take all control
Both hands wrapped around my throat
Turned to a freak in the night
