

## Break Away

Benny Sings

Why do I feel like something's wrong  
Why do I feel the need to break away  
Can't keep going around in circles  
Give me something to hold onto to  
It's not about me, can't do without you  
Why do I feel like something's wrong  
Why do I feel the need to break away  
Can't keep going around in circles  
Give me something to hold onto to  
It's not about me, can't do without you

Like a dream, you look at me with those eyes  
All I ever wanted right is here  
In the garden of youth in between  
So I really want to work it out

Why do I feel like something's wrong  
Why do I feel the need to break away  
Can't keep going around in circles  
Give me something to hold on to  
It's not about me, can't do without you

All we wanted is right here before us  
Don't look at me with those eyes, no it's not your problem  
You always see more than meets the eye  
But I really wanna work it out

Why do I feel like something's wrong  
Why do I feel the need to break away  
Can't keep going around in circles  
Give me something to hold onto to  
It's not about me, can't do without you  
Why do I feel like something's wrong  
Why do I feel the need to break away  
Can't keep going around in circles  
Give me something to hold onto to  
It's not about me, can't do without you
