

I thought we were supposed to go all out
But love is simple, I know now
So let's thrive and do ordinary stuff
'Cause I can't get enough of this love

Can't get enough of our love (Can't get enough of our love)
Can't get enough of our love (Can you hear me, love?)
Can't get enough of our love (Oh baby, I can't get enough our love, no!)
Can't get enough of our love (Can you hear me loud, can you hear me out?)

I thought love changed
Like Seasons
Fall comes, I'm leaving
Oh a love I'm needing
You shot me dead right there
There is no rhyme or reason
I can't explain this feeling

Cause I can't get enough of this love (I, whoa)

Can't get enough of our love (Can't get enough of our love)
Can't get enough of our love (I can't get enough)
Can't get enough of our love (I can't get enough our love, no!)
Can't get enough of our love (Can you hear me loud, can you hear me out?)

I can't get enough of this love

I can't get enough of this love

I can't get enough, I can't get enough
Please love me slow
Please love me slow
Please love me slow (Can't get enough)
Please love me slow (Can't get enough my love)
