

Champagne People

Benny Sings

Champagne people
On a sparkling spring party
Look at how we laugh
Look how we laugh it up

Champagne people
On a sparkling spring party
Look at how we laugh
Look how we laugh it up

So glad that you could make it today
The food is fine and the weather is okay
We've made it so far
So why should we ever be lonely anymore, like this

Champagne people
On a sparkling spring party
Look at what they have
Look how they laugh

Champagne people
On a sparkling spring party
Look at how we live
Look how they laugh
Sing along

Champagne people
On a sparkling spring party
Look at how we laugh
Look how we laugh it up

Champagne people
On a sparkling spring party
Look at how we laugh
Look how we laugh it up
Singing

Pass me the patee darling
Pass me the wine, if you'd like
Don't you love the champagne darling
One of a kind

So glad that you could make it today
Food is fine and the weather's okay
We've made it so far
So why should we ever be lonely anymore, like this

So glad that you could make it today
Food is fine and the weather's okay
We've made it so far
So why should we ever be lonely anymore, like this
