

## Downstream

Benny Sings

Nothing ever seems to change round here  
Except the leaves in winter  
They fall in different ways  
Nothing ever seems to change round here  
Except the leaves in winter  
They laugh and play

Pack your belongings we're going downstream where the best of a  
ll the purpleberries grow  
Pack your belongings we're going downstream where the best of a  
ll the purpleberries grow

No one ever seems to dream around here  
Except the wolves in winter  
They howl in their sleep  
No one ever seems to dream around here  
Except the wolves in winter  
So run with me

Pack your belongings we're going downstream where the best of a  
ll the purpleberries grow (Pack your bags now, we're going down  
stream)  
Pack your belongings we're going downstream where the best of a  
ll the purpleberries grow ('Cause that is where the purpleberri  
es grow)  
Pack your bags now, we're going downstream  
'Cause that is where the purpleberries grow

When the mighty universe calls  
Who can you hear  
Far can you see  
The road is long  
But we can make it

Pack your bags now, we're going downstream  
'Cause that is where the purpleberries grow  
Pack your bags now, we're going downstream  
'Cause that is where the purpleberries grow  
Pack your bags now, we're going downstream  
'Cause that is where the purpleberries grow
