

Each Other

Benny Sings

I get your rhythm though
All we see is each other
I get your rhythm though
All we see is love

Trying to remember
I guess I made up my mind in December
Stopped remembering
Turned my back on love, ooh yeah

Found the perfect stake out
But then you came along and we made out
Full system breakdown
All it took was one look at you, now

I get your rhythm though
All we see is each other
I get your rhythm though
All we see is love

So just another
Broken too many dreams to recover
But we'll see each other
We'll come back again, ooh yeah

We make our own decisions
Cause reality's not our religion
That's how we're living
There's no stopping love, let's do it now

I get your rhythm though
All we see is each other
I get your rhythm though
All we see is love

I get your rhythm though
All we see is each other
I get your rhythm though
All we see is love

Ooh, please don't bring me down
Let's dance and have some fun
Oh, you'll never find your peace
It's not for everyone

Whose to say it's all I need
To dance and have some fun
But I say it is not like me
They don't collide as one, yeah, yeah, yeah...

I get your rhythm though
All we see is each other
I get your rhythm though
All we see is love

I get your rhythm though
All we see is each other

I get your rhythm though
All we see is love
