

Everything I Know

Benny Sings

The walk was long and the dark was harder than I thought
And I wish that we could turn it back
But now, it's sad
You need much more than I can bring
You can't feel my love

But it's all that I've got
It's everything I know
I know it's not a lot
You tell me you need more
But it's all that I've got
It's everything I know
I know it's not a lot
You tell me you need more

It's hard to reach my heart, justify a way
Tell me will we make it?
We can't work it out (Can't work it out)
'Cause I'm dying to wave goodbye to it
Then you get your hopes up
And push your luck too far

But it's all that I've got (It's all that I've got)
It's everything I know (It's everything I know)
I know it's not a lot (I know it's not a lot, no)
You tell me you need more (You tell me you need more)
But it's all that I've got (It's all that I've got)
It's everything I know (It's everything I know)
I know it's not a lot (I know it's not a lot, no)
You tell me you need more

Where would I be without your love? (Your love)
I know I didn't start it right
I didn't get it right away (Couldn't work it out)
But now I'm at the heart of it
So can I get a free pass?
No I guess not, I guess not

But it's all that I've got (It's all that I've got)
It's everything I know (It's everything I know)
I know it's not a lot (I know it's not a lot, no)
You tell me you need more (You tell me you need more)
But it's all that I've got (It's all that I've got)
It's everything I know (It's everything I know)
I know it's not a lot (I know it's not a lot, no)
You tell me you need more

Just give me a sign please
Is there a chance of us working it out?
I am willing to do the work, the work, the work, the work
Don't you mind me
It's all just for now
Can we ride it out, ride it out, ride it out? Yeah

You tell me you need more, more
Can't work it out
Can't work it out

Can't work it out
