

Feather

Benny Sings

So now you're dancing in the wind like a feather
I know what to do my love 'cause I've been here with you
I hope you're waltzing in the wind like a feather
I know what to do my love 'cause I've been here with you

Guess they took the wrong decision
Well they took the part away that meant so much to me
Any word is just another
So little time to run so little time to run and flee

So now you're dancing in the wind like a feather
I know what to do my love 'cause I've been here with you
I hope you're waltzing in the wind like a feather
I know what to do my love 'cause I've been here with you

There's a world of dust between us
And I'm tryin' to just ignore the noise inside my head
I will try not to replace you
I want to live my life I want to live my life again

So now you're dancing in the wind like a feather
I know what to do my love 'cause I've been here with you
I hope you're waltzing in the wind like a feather
I know what to do my love 'cause I've been here with you
