

## Get There

Benny Sings

All the time  
We do it all the time  
All the time  
We do it all the time  
All the time  
We do it all the time  
All the time  
We do it all the time  
All the time  
We do it all the time  
All the time  
We do it all the time  
All the time  
We do it all the time  
All the time  
We do it all the time

There was a day my life was in a different space  
There was a time when I was in an ugly face  
My mind was gone and I was feeling scared as hell  
I can't explain, you won't believe the things I felt

But now I see the silver lining appear  
Gives me reason to believe the sun is near  
Cause once the world be mine I'll sing and dance all night  
I think I'll get, I think I'll get there in my time

Heeooo, I think I'll get there  
I think I'll get there in my time, yao  
Heeooo, I think I'll get there  
I think I'll get there then you're mine, yao

Heeooo, I think I'll get there  
I think I'll get there in my time, yao  
Heeooo, I think I'll get there  
I think I'll get there then you're mine, yao

All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind

Heeooo, I think I'll get there  
I think I'll get there in my time, yao  
Heeooo, I think I'll get there  
I think I'll get there then you're mine, yao

All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind  
All you want is to free your mind
