

# Look What We Do

Benny Sings

We got this love  
Look what we do, we do  
We got this love  
Look what we do, we do  
The way you gotten to know me (Know me)  
The way you make it okay (The way you make it okay)  
We got this love  
We got this love

Just wanna live in a lullaby floating away  
You're like an engine on overdrive, want you to stay, ay  
I think I like it we're so different  
I can never picture how my future was looking before you  
And I'll be your lucky strike, you'll be my lucky star

We got this love  
Look what we do, we do  
We got this love  
Look what we do, we do  
The way you gotten to know me (Know me)  
The way you make it okay (The way you make it okay)  
We got this love  
We got this love

I'll be there for you  
Say you're gon' be there for me  
When the lightbulb's going down, down  
Nobody can touch us, no way  
'Cause nobody can stop love we say  
'Cause we be shining on each day, yeah

We got this love  
Look what we do, we do  
We got this love  
Look what we do, we do  
The way you gotten to know me (Know me)  
The way you make it okay (The way you make it okay)  
We got this love  
We got this love
