

Lost Again

Benny Sings

I'm lost again
All these different ways they get inside your heart
Can't we be friends?
I will be your sunshine even in the dark
(Oh yeah, baby girl)
I'm lost again
All these different ways it get inside your heart
In wonderland (In wonderland)
I can your sunshine even in the dark
Even in the dark, even in the dark

I already know it's too late to think
Yesterday's affairs have lost their weight again (Let's wait a while)
I gave you my everything
What am I to do when there's no one to take it?

I'm lost again
All these different ways they get inside your heart
Can't we be friends?
I will be your sunshine even in the dark
Even in the dark, even in the dark

You tell me you're ready
Thought of where you been and something's up again (Let's wait a while)
I find you so pretty
What am I to do when it's time to set you free?

Just don't know where to go

I'm lost again
All these different ways they get inside your heart
Can't we be friends?
I will be your sunshine even in the dark
(Woah now, baby girl)
I'm lost again (I'm lost again)
All these different ways it get inside your heart
In wonderland (In wonderland)
I can your sunshine even in the dark
Even in the dark, even in the dark

Lost again, lost again
Lost again, lost again
Lost again (Again), lost again (Lost again)
Lost again, lost again (Lost, lost)
Lost again, lost again (Lost again)
Lost again (Lost), lost again (Lost again)
