

## Love Will Find A Way

**Benny Sings**

When the world's asleep  
I can hear you breathe  
Even though we're cold and it rains  
Love will find a way

Guess I see it now  
We're better off somehow  
Even though the band doesn't play  
Love will find a way

Don't you worry, girl  
It's a funny world  
No matter what the newspapers say  
Love will find a way  
Love will find a way
