

Make A Rainbow

Benny Sings

Fresh cleansing rain of the North
Warm hot sun of the south
Make a rainbow
Twelve different colors
Twelve new leaves will sprout
Dissolve the clouds
Fresh cleansing rain of the North
Warm hot sun of the south
Make a rainbow
Twelve different colors
Twelve new leaves will sprout
Dissolve the clouds

And when the night falls
We will unite all
And the blue sea and golden stars
Will make us proud

Fresh cleansing rain of the north
Warm hot sun of the south
Make a rainbow
Twelve different colors
Twelve new leaves will sprout
Dissolve the clouds
Fresh cleansing rain of the north
Warm hot sun of the south
Make a rainbow
Twelve different colors
Twelve new leaves will sprout
Dissolve the clouds

Midwinter's sun is a beauty for some
Nightingale's song that's a beauty for some
Pale winter's sun is a beauty for some
But now that you're gone it's lost its beauty for one

Fresh cleansing rain of the north
Warm hot sun of the south
Make a rainbow
Twelve different colors
Twelve new leaves will sprout
Dissolve the clouds
Fresh cleansing rain of the north
Warm hot sun of the south
Make a rainbow
Twelve different colors
Twelve new leaves will sprout
Dissolve the clouds

When the night falls
We will unite all
And the blue sea and golden stars
Will make us proud
