

# Miracles

Benny Sings

It's a once in a lifetime is what they say  
But I found another way  
It's just a matter of letting it grow  
What gives beneath the mistletoe  
So why don't you look at the writing on the wall  
Sure we don't need no miracle  
Oh, nah, nah, nah

I don't believe in miracles  
Walking on water  
But I believe you're beautiful  
Let us just start there

Tell me you love me, I heard it before  
You keep on knocking on my door  
Tell you need me and that you'll be true  
And I should take a chance on you  
Maybe it's magic under a spell  
Drop quarters in the wishing well  
Give me a reason, a reason to stay  
Our love is gonna last always

I don't believe in miracles  
Walking on water  
But I believe you're beautiful (I believe in you)  
Let us just start there (Let's just start there)  
A miracle, a miracle  
I don't believe in miracles (Believe in you)  
Walking on water (Believe)  
Believe, make me believe in you, a miracle  
But I believe you're beautiful (I believe in you)  
Let us just start there (Let's just start there)  
A miracle

I don't believe in miracles, that's make believe  
I don't believe in miracles, that's make believe, make believe  
I don't believe in miracles, that's make believe  
I don't believe in miracles, that's make believe (make believe)

Well, I try to figure out a meaning of life  
Say, you said "Do you love me," with that perfect smile  
And everything was alright

I don't believe in miracles  
Walking on water  
But I believe you're beautiful  
Let us just start there  
I don't believe in miracles  
Walking on water  
A miracle  
But I believe you're beautiful (I believe in you)  
Let us just start there (A miracle, a miracle)  
I don't believe in miracles (Believe in you)  
Walking on water (Believe)  
Believe, you make me believe in you, miracle  
But I believe you're beautiful (Let me-)  
Let us just start there (Let's just start there)

A miracle

Believe, believe, believe in you  
Believe, believe, you make me believe in you  
A miracle, I believe, I believe in you  
A miracle, a miracle
