

Run Right Back

Benny Sings

So I run right back to you, arms wide open
Bring me back to life, it will feel like just before
Hearts not broken, attracted
So I run right back to you (My baby girl), arms wide open
Bring me back to life, it will feel like just before
Hearts not broken, attracted

Spring went to summer, I'm still falling for you
Day after day, I wonder (Wonder)
But is it that you'd do to meet me this week?
Keep me safe from lightning and thunder

So I run right back to you, arms wide open
Bring me back to life, it will feel like just before
Hearts not broken, attracted
So I run right back to you, arms wide open
Bring me back to life, it will feel like just before
Hearts not broken, attracted

Spring went to summer, I'm still falling for you
Day after day, I wonder (Wonder)
But is it that you'd do to meet me this week?
Keep me safe and from lighting and thunder

So I run right back to you (Right back to you)
