

So Far So Good

Benny Sings

So far, so good
We might just make it
So far, so good
We're standing strong
So far, so good
We're not mistaken
So far, so good
We can't go wrong, love

Undivided
Taking a chance
Burning alive
In it for the win
Undivided
Taking a chance
Burning alive
Let the light in

For you and me
I'll fight the raindrops
For you and me
I'll make it work
We'll let it be
We'll stand and promise
We'll wait and see
Until we're sure, love

Undivided
Taking a chance
Burning alive
In it for the win
Undivided
Taking a chance
Burning alive
Let the light in

What can we do when
A feeling of love is
All there is to know
Is it more than just a song
Buried alive, sing along
Heard them say, "Do it all wrong, my darling"

So far, so good
We might just make it
So far, so good
We're standing strong
So far, so good
We're not mistaken
So far, so good
We can't go wrong, love
