

Softly (Tokyo)

Benny Sings

The way you tilt your head, oh
I know it seemed wrong yesterday
But when you give me that, uh
I know that we'll be together

Do it to me softly
Yes, I like it when you're near me
When you do it to me softly, I know that I'm alive
Just do it to me one more time
Do it to me softly
Yes, I like it when you're near me
When you do it to me softly, I know that I'm alive
Just do it to me one more time

It feels like yesterday, oh
Soon we're away and there's no way to stop it
So take a chance and pull over (That's right)
And don't forget what we got, what we got, my girl

Do it to me softly
Yes, I like it when you're near me
When you do it to me softly, I know that I'm alive
Just do it to me one more time
Do it to me softly
Yes, I like it when you're near me
When you do it to me softly, I know that I'm alive
Just do it to me one more time

Yeah, and we won't stop, and we won't run away
I promise that this time around, our love is here to stay
Oh, baby girl
The way you make me laugh inside
I'm not afraid (I'm not afraid, baby)
So come closer, baby, come closer and give me love
Yeah, baby girl

Do it to me softly
Yes, I like it when you're near me
When you do it to me softly, I know that I'm alive
Just do it to me one more time
Do it to me softly
Yes, I like it when you're near me
When you do it to me softly, I know that I'm alive
Just do it to me one more time, yeah

Just do it to me one more time, yeah
Just do it to me one more time
Do it to me one more time, yeah
