

We Ain't Going Nowhere

Benny Sings

We ain't going nowhere
Just want to know just what I'll take home
Well I doubt we'll ever know
Cause we ain't going nowhere
Cause what is yours and what is mine girl
That's just what we'll never know

Oh darling, I'm dying of thirst
Just a drop or two would be enough at first
I know I have to wait, but what is worse
Is all these crazy waterfalls, to see you know it hurts oh

We ain't going nowhere
Just want to know just what I'll take home
Well I doubt we'll ever know
Cause we ain't going nowhere
Cause what is yours and what is mine girl
That's just what we'll never know

Doubt we'll ever know

Oh God, I'm falling behind
We should be stumbling on but everybody's doing fine
And that's alright with me but when's my time
To shine cause I can see the gems
And I don't wanna stand in line

We ain't going nowhere
Just want to know just what I'll take home
Well I doubt we'll ever know
Cause we ain't going nowhere
Cause what is yours and what is mine girl
That's just what we'll never know

We ain't going nowhere
Just want to know just what I'll take home
Well I doubt we'll ever know
Cause we ain't going nowhere
Cause what is yours and what is mine girl
That's just what we'll never know
