

## Kitchen Table

Benny The Butcher

La Musica De Harry Fraud

We always giving credit to the Pyrex

The microwave and the stove, what about the kitchen table though?

Summertime Butch

Yo, the kitchen table where the takeover started

It's on two shaky legs, some newspaper gonna help you stable the bottom

This is where a lot of plans was made, the kitchen table seen a thousand grams of 'cane

Three Thanksgivings and a thousand hands of spades

1.6 on that bitch, type of shit we all dream about

Coke resi on it like the table at Charlie Sheen's house

My hood, you might walk on your porch and see all the fiends out

Rent cheap and the bedroom small like a Barbie dream house

Streets talkin', I'm lit

Just me and my dogs, no leash, collar, or fence

Don't know weak bosses exist

Dust flying around when I broke pieces off of a brick

I scraped it up with a hotel key card from the Ritz

By 10 a.m., it's breakfast on the table, but

Before I see noon, it's extras from work I stretched on the table

By 3 o'clock, it's a check on the table

By 4:30, they doing homework on it, not knowing what was just on the table

A shaky kitchen table

That shaky kitchen table

That shaky kitchen table

That shaky kitchen table
