Benny The Butcher

Ayo on some G shit
Looking back I can't see how I was running around risking my freedom like th
at
Just to ball for a couple Summer's
(La Musica de Harry Fraud)

I broke bread and shared plates
With the niggas y'all call legends
Y'all too loud when you walk into rooms
It's all presence
My body language just as loud as my voice
And they all catch it
All I do is look and that send them a small message
Now that's a boss huh?
Y'all lil niggas got that word backwards
Phoenix, I rose from the burnt ashes
Trap full of burnt plastic
With a coffee blender I could work magic
But I made a fortune off my first classic
Let me finish
Paranoia
That's what them felonies got me
I fell back from that
And this what longevity got me
Foreigns in my yard got neighbors at my residence watching
I'm gonna be stuntin like this until I'm 70 probably
Longevity

Grind and make sure your cash the strongest
But it's still bout who last the longest
This real shit
I watched niggas cop trucks
Off hustling not luck
But only ball for a Summer
Next one they locked up
Longevity
Grind and make sure your cash the strongest
But it's still bout who last the longest
This real shit
I watched niggas cop trucks
Off hustling not luck
But only ball for a Summer
Next one they locked up

(Montana)

Talking Mil's I got 6 Cash

Pockets pokin' like Kim ass
My Garage like Six Flags
Flip work like gym class
Praise due to the highest
Sick sitting on Len Bias
Drug dealers was the heroes
Preacher's was the liars
Can't deny us got the ladder for the hinges

My lawyer Jewish born Muslim Shoe's Christian
The Vision is
We deep water with no fishing gears
Selling dreams I was missing ears
That's why my nigga Max missing years
My Hollywood thing say she love me
Kind of cold
I don't believe her
She an actress ten Golden Globes
But I'm a do it fuck it
I'm a hit and dub it
She tryna kiss in public
I Goyard the luggage
Nah they don't love us
That's why we on the cover's
Floor by the buzzers
Stars want to cuff us

Grind and make sure your cash the strongest
But it's still bout who last the longest
This real shit
I watched niggas cop trucks
Off hustling not luck
But only ball for a Summer
Next one they locked up

Bahamian waters sippin' a Miami and Vice
Jumpin' back on the jet with so much sand in my Nikes
It's a difference from the jets beefing with the hammers in sight
Where every week somebody get killed
That's more candles than light
I'm screaming call your bet out as I shake my hand with the dice
If you a hustler in the streets
Well, here's some candid advice
Dope is an iphone wet to save it you jam it in rice
But you probably never cooked up 1000 grams of the white
Seems to me you just a fan of this life
Plus your diamonds only dance when you stand in the light
And when calamity strikes it's usually when fortune is close
In the same breath I know niggas that went from fortune to broke
I'm from where new convictions turn to crucifixions
For us exploiting people for their true addictions
So in turn they choose to judge us by the coupes we whippin'
I watch the kids being lied to by computer diction
I say (huh) that the gram is a lie
As I cross my heart I put my hand in the sky
I used to bake with that soda
Just like Canada Dry
Opponents in my way
They need to stand to the side
Watch em fall to the pride right before the fall or the rise
I remember Doe Stacks took an enormous fall for the guys
I seen mothers fall to the floor or call to the sky

Cause they get the call that he died
There's not a law that I abide
I'm fuckin with y'all
Before I have the homies just start buckin at y'all
