

Coffee Cake

Benson Boone

Morning coffee down the street where
Everybody hopes to meet their perfect guy
You've been waiting for some time
Guess you're going, nice to know you
Never knowing, I've been looking through your eyes
Oh, I wonder who's inside

If you go, if you go
Damn, I hope you don't leave alone, oh
If you don't, if you don't
You could stay

And talk with me for days
Over lousy coffee cake
We don't need to watch the time
Let everybody walk on by
And in another life
You wouldn't be a passerby
At any other breakfast place
Where people go their separate ways
Separate ways

Home alone now in my bedroom
Thinking of the flower tattoo on your neck
Did you know I noticed it?
Oh, guess we'll never tell each other stupid jokes
And all about what our parents do
All I got was a glimpse of you (Glimpse of you)

And talk with me for days
Over lousy coffee cake
We don't need to watch the time
Let everybody walk on by
And in another life
You wouldn't be a passerby
At any other breakfast place
Where people go their separate ways
Separate ways

Ooh-ooh
I think about it every day
Maybe you wouldn't stay
If you looked my way

You can talk with me for days
Over lousy coffee cake
We don't need to watch the time
Let everybody walk on by (Walk on by)
And in another life
You wouldn't be a passerby
At any other breakfast place
Where people go their separate ways

Separate ways
Where people go their separate ways
