

Dead Dear (Deer)

Ber

Hate me like I hit you with my bonnet (Bonnet)
Ripping up the picture in my wallet (Wallet)
I meant to push the brakes but then I fed you to the snakes
And now you're bleeding out next to me on the carpet

How was I supposed to know?
I had my eyes fixed on the road
Use this song as an anecdote
Always see you everywhere, it's time to let you go, 'cause

Story time works better now you're dead, dear
Way to start the new year
All I'm tryna do is keep my conscience
Clear away the memories and the photos
Toss 'em out the window
'Cause story time is better now you're dead, dear
Better now you're dead, dear

Didn't really know how much I needed
To say this to someone other than my ceiling
I can cry on my own, I hope you know I'm sorry
If I could take that moment back, I wouldn't

How was I supposed to know?
I had my eyes fixed on the road
Use this song as an anecdote
Always see you everywhere, it's time to let you go, 'cause

Story time works better now you're dead, dear
Way to start the new year
All I'm tryna do is keep my conscience
Clear away the memories and the photos
Toss 'em out the window
'Cause story time is better now you're dead, dear
Better now you're dead, dear
