

# Come Down Father

Beres Hammond

Wish it never had to be, the way I see, this world running  
Shouldn't have to be, cause now everyman's cup is filled with hate and overflowing  
Father, a nuff things a gwan round ya, it's wickeder than before,  
We really check sey we coulda run things, but it nuh look so anymore

Come down father, come down  
Come down father, come down  
Come down father, come down  
Come down father, come down

In my heart I know that you won't let your chosen people suffer  
, (too long)  
I know u would never let us down  
Many times I coulda pick up a gun, I coulda go out a street and play big john  
That's no fun no, sure ain't no fun, cause I think  
What would happen if the other man, thinks the same, then bullets fall like rain,  
It's no fun no, no it's no fun

Oh I see greed and I see selfishness, everyman is for themselves  
Only u can talk to them father, cause they listen to no one else

To the hearts of those responsible, let them know their actions are despicable  
Remind them that is u who wears the crown

Oh, unto the ones who think you can do these wrongs and get away,  
Woe unto u, and watch out for your day

Wish it never had to be, the way I see, this world running  
Shouldn't have to be, cause now everyone's cup is filled with hate and overflowing  
Father, a nuff things a gwan round ya, it's wickeder than before,  
We really believe we coulda run things, but it nuh look so anymore
