

# Groovy Little Thing

Beres Hammond

Many try but couldn't steal my honey  
Many try but couldn't get her love  
Some fool they try to trick her with his money  
Turn around and wonder what she is made of

She just love this groovy little thing we got going  
It will last as long as our hearts are beating  
She just love this groovy little thing we got going  
It will last as long as our hearts are beating

Many try but she would not leave me  
Many try to tell her lies 'bout me  
Sometimes the things they say lord knows would hurt me  
With a smile she just ignored their silly tries

She just love this groovy little thing we got going  
And it will last as long as our hearts are beating  
The women just love this groovy little thing we got going  
And it will last as long as our hearts are beating

Many try but couldn't steal my honey  
Many try but couldn't get her love  
Some fool they try to trick her with his money  
Turn around and wonder what she is made of

I think she just love this groovy little thing we got going  
And it will last as long as our hearts are beating  
The women just love this groovy little thing we got going  
And it will last as long as our hearts are beating

I'm telling you that you just love this groovy little thing we  
got going  
And it will last as long as our hearts are beating  
The women just love this groovy little thing we got going  
And it will last as long as our hearts are beating
