

# I'll Live Again

Beres Hammond

Giving praises, Father, only You gonna love me  
If this world should let me down  
Only You can I sing to, if the audience not around  
Life has no meaning if everyone don't care  
Don't have to talk to You for You to hear, woah  
You're never on a mission, too busy for Your son  
Don't have to say a word, You feel me to the bone  
Let me through on earth and yes, I had my fill  
And up till this time You're the best friend I have  
And I know I'll live again, I'll live again  
Over test that they give I will forgive  
'Cause I know I'll live again  
Over trials and tribulations that I've been through  
I know I'll live again  
So take one day at a time, some of us are slow to learn  
And You're such a good teacher, ooh, You're so concerned  
'Cause after every lesson You take time for revision  
Always You know who is too slow  
And You take the time to let him grow  
Who is that Man that peeps down deep within my soul?  
Who is that Man that follows me down rough and rocky road?  
I ask the question and until now I just can't believe  
There's such a Man who cares for everyone still stretches out His hand  
I'll live again, I'll live again  
Over test that they give I will forgive  
'Cause I know I'll live again  
For the trials and tribulations that I've been through, yes  
I'll sing praises on to You  
And I want my little folks around to do exactly what I do  
Sing, highest praises on to You  
Praise in my rejections and trails, woah  
Let's go and take one day at a time, some of us are slow to learn  
And You're such a good teacher, ooh, always so concerned  
'Cause after every lesson You take the time for revision  
And always You know who is too slow  
And You take the time to let him grow  
Who is that Man that peeps down deep within my soul?  
Who is that Man sacrifices for young and the old?  
I ask the question and until now I can't believe  
There's such a Man who cares for everyone still believes in me  
I'll live again, I'll live again, yes  
In my trials and tribulations I know I'll live again  
Oh, You let me through on earth and yes, I had my fill  
And up till this time You're still the best friend I made  
And I know I, I will live again  
Oh, by the mercy of You, I know I'll live again  
Oh, You do me what You wanna do  
Oh, I, yeah, yeah, I'll live again  
I believe, so I know, I, I, I, I, I, I, I, I, I, I, I  
Help me, 'cause I know I'll live again
